Contents

VOLUME 7 NUMBER 1

MicroReview

1 **Copper uptake and resistance in bacteria**
D. A. Cooksey

Research Articles

7 **Two distinct defects in intracellular growth complemented by a single genetic locus in *Legionella pneumophila***
K. H. Berger & R. R. Isberg

21 **Isolation and characterization of full-length chromosomes from non-culturable plant-pathogenic *Mycoplasma*-like organisms**
H. Neimark & B. C. Kirkpatrick

29 **Membrane topology of MalG, an inner membrane protein from the maltose transport system of *Escherichia coli***
E. Dassa & S. Muir

39 **Sequence–function relationships in MalG, an inner membrane protein from the maltose transport system of *Escherichia coli***
E. Dassa

49 **The strongly conserved carboxyl-terminus glycine–methionine motif of the *Escherichia coli* GroEL chaperonin is dispensable**
N. F. McLennan, A. S. Girshovich, N. M. Lissin, Y. Charters & M. Masters

59 **MxiD, an outer membrane protein necessary for the secretion of the *Shigella flexneri* Ipa invasins**
A. Allaoui, P. J. Sansonetti & C. Parsot

69 **The essential *Escherichia coli msbA* gene, a multicopy suppressor of null mutations in the *htrB* gene, is related to the universally conserved family of ATP-dependent translocators**
M. Karow & C. Georgopoulos

81 ***C*-terminal truncation of the transcriptional activator encoded by *areA* in *Aspergillus nidulans* results in both loss-of-function and gain-of-function phenotypes**
M. Stankovich, A. Platt, M. X. Caddick, T. Langdon, P. M. Shaffer & H. N. Arst, Jr

89 **Cloning and molecular characterization of a gene involved in *Salmonella* adherence and invasion of cultured epithelial cells**
R. M. Altmeyer, J. K. McNern, J. C. Bossio, I. Rosenshine, B. B. Finlay & J. E. Galán

99 **A collagen receptor on *Staphylococcus aureus* strains isolated from patients with septic arthritis mediates adhesion to cartilage**
L. M. Switalski, J. M. Patti, W. Butcher, A. G. Gristina, P. Speziale & M. Höök

109 **Signal transduction between the two regulatory components involved in the regulation of the *kdpABC* operon in *Escherichia coli*: phosphorylation-dependent functioning of the positive regulator, KdpE**
K. Nakashima, A. Sugiura, K. Kanamaru & T. Mizuno

117 **Identification and characterization of the *exbB, exbD* and *tonB* genes of *Pseudomonas putida* WCS358: their involvement in ferric-pseudobactin transport**
W. Bitter, J. Tommassen & P. J. Weisbeek

131 **Topology of PhoE porin: the 'eyelet' region**
M. Struyvé, J. Visser, H. Adriaanse, R. Benz & J. Tommassen

141 **Involvement of lipopolysaccharide in the secretion of *Escherichia coli* α-haemolysin and *Erwinia chrysanthemi* proteases**
C. Wandersman & S. Létoffé

151 **Definition of nitrite and nitrate response elements at the anaerobically inducible *Escherichia coli nirB* promoter: interactions between FNR and NarL**
K. L. Tyson, A. I. Bell, J. A. Cole & S. J. W. Busby

VOLUME 7 NUMBER 2

MicroReview

159 **SecA protein: autoregulated ATPase catalysing preprotein insertion and translocation across the *Escherichia coli* inner membrane**
D. B. Oliver

Research Articles

167 **Translocation of precytochrome c_2 into intracytoplasmic membrane vesicles of *Rhodobacter capsulatus* requires a peripheral membrane protein**
B. Wieseler & M. Müller

177 **Isolation of a prokaryotic metallothionein locus and analysis of transcriptional control by trace metal ions**
J. W. Huckle, A. P. Morby, J. S. Turner & N. J. Robinson

189 **Deletion within the metallothionein locus of cadmium-tolerant *Synechococcus* PCC 6301 involving a highly iterated palindrome (HIP1)**
A. Gupta, A. P. Morby, J. S. Turner, B. A. Whitton & N. J. Robinson

197 **Use of an ordered cosmid library to deduce the genomic organization of *Mycobacterium leprae***
K. Eiglmeier, N. Honoré, S. A. Woods, B. Caudron & S. T. Cole

207 **Nucleotide sequence of the first cosmid from the *Mycobacterium leprae* genome project: structure and function of the Rif–Str regions**
N. Honoré, S. Bergh, S. Chanteau, F. Doucet-Populaire, K. Eiglmeier, T. Garnier, C. Georges, P. Launois, T. Limpaiboon, S. Newton, K. Niang, P. del Portillo, G. R. Ramesh, P. Reddi, P. R. Ridel, N. Sittisombut, S. Wu-Hunter & S. T. Cole

215 **The general amino acid control regulates *MET4*, which encodes a methionine-pathway-specific transcriptional activator of *Saccharomyces cerevisiae***
H. A. Mountain, A. S. Byström & C. Korch

229 **Basement membrane carbohydrate as a target for bacterial adhesion: binding of type I fimbriae of *Salmonella enterica* and *Escherichia coli* to laminin**
M. Kukkonen, T. Raunio, R. Virkola, K. Lähteenmäki, P. H. Mäkelä, P. Klemm, S. Clegg & T. K. Korhonen

239 **Molecular cloning and characterization of the genetic determinants that express the complete *Shigella* serotype D (*Shigella sonnei*) lipopolysaccharide in heterologous live attenuated vaccine strains**
J.-F. Viret, S. J. Cryz, Jr, A. B. Lang & D. Favre

253 **Effects of $tRNA_1^{Leu}$ overproduction in *Escherichia coli***
S. Z. Wahab, K. O. Rowley & W. M. Holmes

265 **Mutagenesis and functional analysis of the *Escherichia coli* $tRNA_1^{Leu}$ promoter**
B. F. Bauer, R. M. Elford & W. M. Holmes

275 **Suppression of *rpsL* phenotypes by *tuf* mutations reveals a unique relationship between translation elongation and growth rate**
I. Tubulekas & D. Hughes

285 **Q pili enhance the attachment of *Moraxella bovis* to bovine corneas *in vitro***
W. W. Ruehl, C. Marrs, M. K. Beard, V. Shokooki, J. R. Hinojoza, S. Banks, D. Bieber & J. S. Mattick

289 **The origin of greater-than-unit-length plasmids generated during bacterial conjugation**
M. J. Erickson & R. J. Meyer

299 **Signalling of *Trichomonas vaginalis* for amoeboid transformation and adhesin synthesis follows cytoadherence**
R. Arroyo, A. González-Robles, A. Martínez-Palomo & J. F. Alderete

311 **Regulation of transcription of genes required for fatty acid transport and unsaturated fatty acid biosynthesis in *Escherichia coli* by FadR**
C. C. DiRusso, A. K. Metzger & T. L. Heimert

323 **Bafilomycin A1 inhibits *Helicobacter pylori*-induced vacuolization of HeLa cells**
E. Papini, M. Bugnoli, M. De Bernard, N. Figura, R. Rappuoli & C. Montecucco

329 **Genetic analysis of the φC31-specific phage growth limitation (Pgl) system of *Streptomyces coelicolor* A3(2)**
C. Laity, K. F. Chater, C. G. Lewis & M. J. Buttner

VOLUME 7 NUMBER 3

MicroReview

337 **Transition-state regulators: sentinels of *Bacillus subtilis* post-exponenetial gene expression**
M. A. Strauch & J. A. Hoch

Research Articles

343 **Protein HU binds specifically to kinked DNA**
A. Pontiggia, A. Negri, M. Beltrame & M. E. Bianchi

351 **Isolation and characterization of a *topA* mutant of *Shigella flexneri***
N. N. Bhriain & C. J. Dorman

359 **Isolation of *dnaJ, dnaK,* and *grpE* homologues from *Borrelia burgdorferi* and complementation of *Escherichia coli* mutants**
K. Tilly, R. Hauser, J. Campbell & G. J. Ostheimer

371 **Identification and characterization of adhesive factors of *Clostridium difficile* involved in adhesion to human colonic enterocyte-like Caco-2 and mucus-secreting HT29 cells in culture**
M. Eveillard, V. Fourel, M.-C. Barc, S. Kernéis, M.-H. Coconnier, T. Karjalainen, P. Bourlioux & A. L. Servin

383 **The TonB-dependent ferrichrome receptor FcuA of *Yersinia enterocolitica*: evidence against a strict co-evolution of receptor structure and substrate specificity**
R. Koebnik, K. Hantke & V. Braun

395 **DNA sequence, structure and gene expression of mycobacteriophage L5: a phage system for mycobacterial genetics**
G. F. Hatfull & G. J. Sarkis

407 **Superinfection immunity of mycobacteriophage L5: applications for genetic transformation of mycobacteria**
M. K. Donnelly-Wu, W. R. Jacobs, Jr & G. F. Hatfull

419 **Bacterial cholesterol oxidases are able to act as flavoprotein-linked ketosteroid monooxygenases that catalyse the hydroxylation of cholesterol to 4-cholesten-6-ol-3-one**
I. Molnár, N. Hayashi, K.-P. Choi, H. Yamamoto, M. Yamashita & Y. Murooka

429 **Iron-dependent stability of the ferredoxin I transcripts from the cyanobacterial strains *Synechococcus* species PCC 7942 and *Anabaena* species PCC 7937**
A. Bovy, G. de Vrieze, L. Lugones, P. van Horssen, C. van den Berg, M. Borrias & P. Weisbeek

441 **Amplified expression of a transcriptional pattern formed during development of *Anabaena***
C. P. Wolk, J. Elhai, T. Kuritz & D. Holland

447 **Characterization of genes involved in molybdenum transport in *Azotobacter vinelandii***
F. Luque, L. A. Mitchenall, M. Chapman, R. Christine & R. N. Pau

461 **Cloning and characterization of the *Vibrio cholerae* genes encoding the utilization of iron from haemin and haemoglobin**
D. P. Henderson & S. M. Payne

471 **Light-induced carotenogenesis in *Myxococcus xanthus*: genetic analysis of the *carR* region**
D. A. Hodgson

VOLUME 7 NUMBER 4

MicroReviews

489 **The two faces of *Bacillus thuringiensis*: insecticidal proteins and post-exponential survival**
A. I. Aronson

497 **Translational frameshifting in the control of transposition in bacteria**
M. Chandler and O. Fayet

Research Articles

505 **Class 1 outer membrane protein of *Neisseria meningitidis*: epitope analysis of the antigenic diversity between strains, implications for subtype definition and molecular epidemiology**
B. T. McGuinness, P. R. Lambden & J. E. Heckels

515 **Electrophoretic karyotype and gene assignment to resolved chromosomes of *Trichoderma* spp.**
A. Herrera-Estrella, G. H. Goldman, M. Van Montagu & R. A. Geremia

523 **The RpoS sigma factor relieves H-NS-mediated transcriptional repression of *csgA*, the subunit gene of fibronectin-binding curli in *Escherichia coli***
A. Olsén, A. Arnqvist, M. Hammar, S. Sukupolvi & S. Normark

537 **Bacterial interspersed mosaic elements (BIMEs) are present in the genome of *Klebsiella***
S. Bachellier, D. Perrin, M. Hofnung & E. Gilson

545 **Regulation of pyelonephritis-associated pili phase-variation in *Escherichia coli*: binding of the PapI and the Lrp regulatory proteins is controlled by DNA methylation**
X. Nou, B. Skinner, B. Braaten, L. Blyn, D. Hirsch & D. Low

555 **Characterization of a *virG* mutation that confers constitutive virulence gene expression in *Agrobacterium***
S. Jin, Y.-N. Song, S. Q. Pan & E. W. Nester

585 **Characterization of the diphtheria toxin receptor-binding domain**
J. M. Rolf & L. Eidels

563 **Cloning and characterization of the bundle-forming pilin gene of enteropathogenic *Escherichia coli* and its distribution in *Salmonella* serotypes**
I. Sohel, J. L. Puente, W. J. Murray, J. Vuopio-Varkila & G. K. Schoolnik

577 **Identification and characterization of IS*1138*, a transposable element from *Mycoplasma pulmonis* that belongs to the IS*3* family**
B. Bhugra & K. Dybvig

593 **High-affinity binding of the basement membrane protein collagen type IV to the crystalline virulence surface protein array of *Aeromonas salmonicida***
T. J. Trust, M. Kostrzynska, L. Emödy & T. Wadström

601 **The *minCD* locus of *Bacillus subtilis* lacks the *minE* determinant that provides topological specificity to cell division**
S. Lee & C. W. Price

611 **Characterization of mutations in *divIB* of *Bacillus subtilis* and cellular localization of the DivIB protein**
E. J. Harry, B. J. Stewart & R. G. Wake

623 **Homologous overexpression of a light-driven anion pump in an archaebacterium**
J. A. W. Heymann, W. A. Havelka & D. Oesterhelt

VOLUME 7 NUMBER 5

MicroReview

631 **Regulation of peptide antibiotic production in *Bacillus***
M. A. Marahiel, M. M. Nakano & P. Zuber

637 **Strategies in pathogenesis: mechanistic specificity in the detection of generic signals**
M. E. Duban, K. Lee & D. G. Lynn

Research Articles

647 ***In situ* hybridization analysis of developmental stages of *Pneumocystis carinii* that are transcriptionally active for a major surface glycoprotein gene**
P. J. Haidaris, T. W. Wright, F. Gigliotti, M. A. Fallon, A. A. Whitbeck & C. G. Haidaris

657 **Molecular analysis of a cytotoxin-converting phage, ϕCTX, of *Pseudomonas aeruginosa*: structure of the *attP–cos–ctx* region and integration into the serine tRNA gene**
T. Hayashi, H. Matsumoto, M. Ohnishi & Y. Terawaki

669 **PilS and PilR, a two-component transcriptional regulatory system controlling expression of type 4 fimbriae in *Pseudomonas aeruginosa***
M. Hobbs, E. S. R. Collie, P. D. Free, S. P. Livingston & J. S. Mattick

683 **Deletion analysis of the *SUP35* gene of the yeast *Saccharomyces cerevisiae* reveals two non-overlapping functional regions in the encoded protein**
M. D. Ter-Avanesyan, V. V. Kushnirov, A. R. Dagkesamanskaya, S. A. Didichenko, Y. O. Chernoff, S. G. Inge-Vechtomov & V. N. Smirnov

693 **Functional analysis of the *cya* promoter of *Bordetella pertussis***
S. Goyard & A. Ullmann

705 **Initiation of mRNA decay in *Bacillus subtilis***
J. F. DiMari & D. H. Bechhofer

719 **The *virA* promoter is a host-range determinant in *Agrobacterium tumefaciens***
S. C. H. J. Turk, E. W. Nester & P. J. J. Hooykaas

725 **Repeat unit polysaccharides of bacteria: a model for polymerization resembling that of ribosomes and fatty acid synthetase, with a novel mechanism for determining chain length**
D. A. Bastin, G. Stevenson, P. K. Brown, A. Haase & P. R. Reeves

735 ***Bacillus subtilis* FlhA: a flagellar protein related to a new family of signal-transducing receptors**
P. B. Carpenter & G. W. Ordal

745 **A 55 kDa antigen of *Pneumocystis carinii*: analysis of the cellular immune response and characterization of the gene**
A. G. Smulian, S. A. Theus, N. Denko, P. D. Walzer & J. R. Stringer

755 **Structural analysis and demonstration of the 29 kDa antigen of pathogenic *Entamoeba histolytica* as the major accessible free thiol-containing surface protein**
B. M. Flores, M. A. Batzer, M. A. Stein, C. Petersen, D. L. Diedrich & B. E. Torian

765 **Cloning and identification of a two-component signal-transducing regulatory system from *Bacteroides fragilis***
B. A. Rasmussen & E. Kovacs

777 ***Chlamydia trachomatis* Mip-like protein has peptidyl-prolyl *cis/trans* isomerase activity that is inhibited by FK506 and rapamycin and is implicated in initiation of chlamydial infection**
A. G. Lundemose, J. E. Kay & J. H. Pearce

785 **Mutagenesis of cellulase EGZ for studying the general protein secretory pathway in *Erwinia chrysanthemi***
B. Py, M. Chippaux & F. Barras

795 **TraM of plasmid R1 regulates its own expression**
M. Schwab, H. Reisenzein & G. Högenauer

805 **Characterization of a replicon of the moderately promiscuous plasmid, pGSH5000, with features of both the mini-replicon of pCU1 and the *ori-2* of F**
F. M. Da Silva-Tatley & L. M. Steyn

VOLUME 7 NUMBER 6

MicroReviews

825 **Molecular analysis of *spv* virulence genes of the salmonella virulence plasmids**
P. A. Gulig, H. Danbara, D. G. Guiney, A. J. Lax, F. Norel & M. Rhen

831 **The Rad3 protein from *Saccharomyces cerevisiae*: a DNA and DNA:RNA helicase with putative RNA helicase activity**
P. J. Deschavanne & I. Harosh

Research Articles

837 **Stationary-phase production of the antibiotic actinorhodin in *Streptomyces coelicolor* A3(2) is transcriptionally regulated**
H. C. Gramajo, E. Takano & M. J. Bibb

847 **Specific binding sites in the *alcR* and *alcA* promoters of the ethanol regulon for the CREA repressor mediating carbon catabolite repression in *Aspergillus nidulans***
P. Kulmburg, M. Mathieu, C. Dowzer, J. Kelly & B. Felenbok

859 **Involvement of the RNA polymerase α subunit *C*-terminal region in co-operative interaction and transcriptional activation with OxyR protein**
K. Tao, N. Fujita & A. Ishihama

865 **NAD^+-dependent malic enzyme of *Rhizobium meliloti* is required for symbiotic nitrogen fixation**
B. T. Driscoll & T. M. Finan

875 **Antisense RNA mediates transcriptional processing in an archaebacterium, indicating a novel kind of RNase activity**
P. Stolt & W. Zillig

883 **Organization of Lrp-binding sites upstream of *ilvIH* in *Salmonella typhimurium***
Q. Wang, M. Sacco, E. Ricca, C. T. Lago, M. DeFelice & J. M. Calvo

893 **Positive transcriptional control of *mry* regulates virulence in the group A streptococcus**
N. Okada, R. T. Geist & M. G. Caparon

905 **Molecular characterization of the enniatin synthetase gene encoding a multifunctional enzyme catalysing *N*-methyldepsipeptide formation in *Fusarium scirpi***
A. Haese, M. Schubert, M. Herrmann & R. Zocher

915 **The *Bacillus subtilis addAB* genes are fully functional in *Escherichia coli***
J. Kooistra, B. J. Haijema & G. Venema

925 **The conjugative plasmid SLP2 of *Streptocymes lividans* is a 50 kb linear molecule**
C. W. Chen, T.-W. Yu, Y.-S. Lin, H. M. Kieser & D. A. Hopwood

933 **Recombination-deficient mutants of *Salmonella typhimurium* are avirulent and sensitive to the oxidative burst of macrophages**
N. A. Buchmeier, C. J. Lipps, M. Y. H. So & F. Heffron

937 ***In vitro* transcription in *Chlamydia psittaci* and *Chlamydia trachomatis***
S. A. Mathews, A. Douglas, K. S. Sriprakash & T. P. Hatch

947 **Expression of the *pspA* gene stimulates efficient protein export in *Escherichia coli***
M. Kleerebezem & J. Tommassen

957 **Two genes present on a transposon-like structure in *Lactococcus lactis* are involved in a Clp-family proteolytic activity**
D. C. Huang, X. F. Huang, G. Novel & M. Novel

967 **A positive feedback loop controls transcription of the *spo0F* gene, a component of the sporulation phosphorelay in *Bacillus subtilis***
M. A. Strauch, J.-J. Wu, R. H. Jonas & J. A. Hoch

975 **Translation across the 5'-splice site interferes with autocatalytic splicing**
M. Öhman-Hedén, A. Åhgren-Stålhandske, S. Hahne & B.-M. Sjöberg

983 **Ribosome activity and modification of 16S RNA are influenced by deletion of ribosomal protein S20**
M. Rydén-Aulin, Z. Shaoping, P. Kylsten & L. A. Isaksson

993 **Transcriptional organization of the F1845 fimbrial adhesin determinant of *Escherichia coli***
S. S. Bilge, J. M. Apostol Jr, K. J. Fullner & S. L. Moseley

1007 **The *Klebsiella pneumoniae nifJ* promoter: analysis of promoter elements regulating activation by the NifA promoter**
W. Charlton, W. Cannon & M. Buck

Errata

1023 **The Fis protein: it's not just for DNA inversion anymore**
S. E. Finkel & R. C. Johnson

1024 **Cloning, nucleotide sequence determination and expression of the genes encoding cytochrome P-450$_{soy}$ (*soyC*) and ferredoxin$_{soy}$ (*soyB*) from *Streptomyces griseus***
M. K. Trower, R. Lenstra, C. Omer, S. E. Buchholz & F. S. Sariaslani

1025 ***C*-terminal truncation of the transcriptional activator encoded by *areA* in *Aspergillus nidulans* results in both loss-of-function and gain-of-function phenotypes**
M. Stankovich, A. Platt, M. X. Caddick, T. Langdon, P. M. Shaffer & H. N. Arst, Jr

1026 **Purification of the ST$_B$ enterotoxin of *Escherichia coli* and the role of selected amino acids on its secretion, stability and toxicity**
L. A. Dreyfus, R. G. Urban, S. C. Whipp, C. Slaughter, K. Tachias & Y. M. Kupersztoch
